Nah

Would you!?!?

I wouldn't say no without seeing what the offer way first

haha well feel free to spin something up.

Everything has its price

It sure does

I would give you any QB on my team (I have 3 that are better than Stafford) and your choice of any RB/WR on my team

Hey bud,
I booked a call today with the CEO of South Carolina located lead called:

Southern Coker Power

I can run with the call but don't have much background other than to collect information for max when he returns.

Would you or Todd be able to join at 3pm with me or should I just keep it light and collect info for when max returns, or, unless it's apparently urgent for an order then pull you in for a second call?

They have already inquired over email about inventory and pricing to ship to SC and booked the call once the email hit their inbox

Nice. I can join at 3:00

Send me the invite

Sounds like a good opportunities

Ok sent. Also sent you another booked meeting that just came in for tomorrow at 4pm

Liked "Ok sent. Also sent you another booked meeting that..."

2/21/23, 3:01 PM

All you man! I'm listening to learn and help with follow up. Also in transit

Ok

Go get it!

(Let me know if I can help in any way, I'll log this as my lead to review and confirm with max later)

Please cc me so I can't study your quotes

Also I have a handful of responses from a campaign I sent today. I don't know the answers. Should I send you each email or consolidate to one email so I can copy/paste your responses to reply back

2/21/23, 5:55 PM

I would send me each email individually

So I see how the client reposnded

i-solar-technologies.com

This is the company booked for 4pm today. I can not attend this. It's on your calendar. Can you confirm you can attend?

2/22/23, 1:57 PM

Yep.

I got it covered

Nice. Curious if those guys from yesterday got a quote and what not

I'm trying to find the notes that I took from that call and can't find it. I know I owe them the data sheet for the VSUN 370W residential.

What else do I owe them? I know who it was a quote for something else

I really am not sure. I was listening but in transit. I could email them or shoot them a note stating what's coming but asking for the missing piece so they get exactly what they need

I know it was a quick turnaround request tho

If you could. Please. I looked everywhere and I can't find it

Ok

I'll cc you

I'm pretty sure the other quote was for commercial panels...our VSUN 450s and something else.

Tell them that I was traveling and can't find my notes from the call so I don't sound like too much of an idiot

Got it

Any edits to make?

I would also change/add in "provide"

Provide VSUN 450W "commercial" data sheet
Provide VSUN 370W "residential" data sheet

Change....please provide the quantity and delivery location for the commercial project.

Ok

Before you send, show it to me again

Good to send?

No....couple more changes.

Change non-commercial to residential

Provide data sheet for Canadian 400w bifacials

Please also provide....of the commercial project so we can get you a DDP (delivered) quote. Our carrier needs the town or zip code to accurately quote the shipping.

Add this too....Provide data sheet for Boviet 545w bifacials

I'm pretty sure I have most of it now

Lol. Not that. Just send me the email first and I'll fix it

Just sent to you

Thx. Looking at it now

Sent. I see what you meant now misunderstood

No prob. Thanks buddy.

Your 4 PM just emailed you he's on the call

Just jumped on

Good call? Curious if we reached the right persona company and individual. Just saw his manufacturing deck just glanced at it

Terrible call

He needs us to help him sell his bullshit product/service

Damn. Aim to avoid this

I'll screen before adding but this one was hard to tell

I'm sure somehow we could benefit from each other but not worth the time. He's just starting out as a business so we wouldn't benefit much

Got it thanks

All good

I just gotta get to the point where I can do discovery calls to qualify the lead. Getting there

You'll get it soon enough

Everyone does

Any interest in mahomes? I need both RB and WRs and am open to trades

I'm open to picking up Mahomes

Which RB and WR are you wanting?

I have tons. Team is loaded

I'm gauging interest. Since you're open, I'll make a proposal by tomorrow. I like Etienne. Several other good RBs and WRs. It would be a multiplayer deal for mahomes.

Feel free to kick it off with ideas. I'm still looking

But clearly I have one good player and need help so
