Can I call you in 5 min?

Yes

Got another live one. Massive

Emphasized "Got another live one. Massive "

Can you attend the 2:45 pitch on generative AI? I have the BSRI call at that time

Possibly ; will coordinate with Matt

2/23/23, 6:24 PM

We're walking down to lobby if you're in your room

Down by front door now

60 sec away

2/24/23, 11:32 AM

You guys good? I met some folks here in breakout. Back for lunch

Yup!

2/24/23, 2:58 PM

I'm inside near that black curtain. Not sure where to take this stuff

Read 2/24/23

Be there in 10  
Second

quick thoughts?

Looks realistic

Attachment stored in iCloud:  
PNG image.jpeg (Image)

this one. I changed last column header

Ok. Thats is exactly what mike is talking about wanting to see so this should really hit home with any investor looking to fully subscribe the round 100% at \$150k or friends and family wanting to see what a floor and ceiling exit looks like

Great; this is excellent; thanks for the math

Attachment stored in iCloud:  
PNG image.jpeg (Image)

ok I added "8x return" and "19x return" to the low and high scenarios. Their minds will be going there anyway. So this slide is now #12. I moved it up and removed it from the appendix slides. I think it needs to be front and center in the deck

It's in the google drive version. I'll resend the link to your slack just in case

Okay, yes; hard numbers were an ask

Good luck tomorrow but I think this is good. Please please record it and I plan to package and send Tuesday

Got it!

7/25/23, 9:23 AM

Hey steve—hope you are all okay. Let me know if you have availability today/tomorrow. I want to get the twiph website launched

7/25/23, 11:34 AM

Ok. We are back in Florida. I believe he's in the final day or two and preparing for that with the fam here. I'm also needing to chat with you both about the TWIPH site and also a plan for how I can sustain myself through future months pre funding and without cash flow as I have been thinking that through with recent financial pressures but optimistic about the idea I have to make ends meet and keep/regain momentum

Can we do tomorrow early morning? That's a safe window I think I can call you cell

Yes, anytime 9-12

Ok I'll call your cell and text ahead of time to confirm

7/26/23, 10:27 AM

Can I call this afternoon. I just can't talk this morning.

I have some blocks, but don't feel pressured

8/9/23, 4:23 PM

Still hoping to get something on the calendar , time tomorrow?

8/10/23, 5:22 PM

Or tomorrow?

8/21/23, 11:19 AM

Please look for an email from last pass and join my last pass account. From there, you should see a folder with 65 sites with credentials. The folder is Called "Steve's transfer to Jon"

From there, I will create a document that is private to that folder and I will add all my hand off notes and anything else in that same last pass folder with the password. This keeps it all easy and safe to handoff

Okay, nothing yet...

Fixed it. You should see it. Once in, you should see an empty account. When I grant you permissions to the shared last pass folder, i'll text you

Okay, in

Ok you have access to the folder but I'm still adding things in. I'll ping you when its fully all there, but there a a couple gaps I see so I'm working on that

Okay, I seee this all now

8/21/23, 9:38 PM

I'd like to comb a bank statement to see what recurring charges I can cancel so if there isn't a credential I left you by mistake you aren't stuck with a bill. Certainly, I would not just log into Wells Fargo without telling you so I can either do that or you could send me a statements for the past two months to compare. However you'd like to do it

Sure; I can send stuff to you first thing tomorrow

Or at least I can give an overview of things for you to consider then see what accounts you want me to cancel or divide conquer, etc

Ok thank you

Roger that

11/9/23, 9:14 AM

I remembered the google login thank god

Just tried it and it worked

PUBt1334!

Okay, you should be getting a code

It didn't trigger one when I logged in but I'm standing by

Should be to your personal gmail

940387

Thanks a bunch!!!

You got it

2/29/24, 5:25 PM

I had three missed calls from this individual and decided to investigate who it was. They scheduled again through the website on your end for March 21. I will call them tomorrow morning to verbalize the mishap and patch this so you can step in.

Oh, wow; thanks a bunch; we'll take that down; I wonder who this could be?

Nevada Institute for Children's Research and Policy' - more coming in. Can I call you tomorrow?

Yeah; any time before 11

3/1/24, 10:27 AM

Might it!

Got it

3/11/24, 7:52 PM

Hi Jon, strange question here but I want to show a friend , not a client, what a PDF can look like when it has an AI trained on its content, with prompts through out to dig deeper, and where a call to action might be strategically placed. I have zero visual left from my time at pubtrawlR but feel like we were actually ahead on the game on that one. If that's uncomfortable, please that is zero problem and I would not be offended one bit. If so, I would love to see it for the geek in us

Not a problem at all. What do you need from me? I can share the prototype app from World Animal Protection that Zim built

That would be awesome. Maybe the v1 version we started with and yea whatever is final version to date would be very cool. Can sign anything too, but you have my word on its safety

Sure, we get to to you when I'm back at computer

Cool. I'll also send you a podcast I was just on at SXSW in Austin last week. Came out today. You'd dig it

Rocking! Please do

3/21/24, 10:55 AM

Just maki my sure this handoff is good to go they scheduled a meeting on an old link to my old email with you

I gave them your name, number, email to confirm with you. Good luck

3/21/24, 12:57 PM

Got it; thanks steve!
