Hi Brian, we spoke over the phone on Monday about the car port project at landings at lemon bay. Do you have a moment later today or tomorrow (preferred) to speak on the phone. Just a few things to run by you before our schedule on-site this upcoming Monday

Can I call you aprox at 3 ? Thanks

Yes

11/8/23, 3:02 PM

I'm free now through 4pm today so zero rush

Call you in 2 min

Had a call come in

No problem

11/13/23, 7:33 AM

Good morning Brian,

I'm confirming todays on site meeting regarding the car port. I wanted to confirm our meeting time of 11 AM, but I also wanted to see if you had flexibility today.

I'm trying to coordinate with our head of install who has done many more of these projects and brings a a lot of domain expertise to the nuances of this type of project.

If you don't have availability outside of 11 AM today, or your availability doesn't match his, we can stick with the scheduled time of 11am as I am one of the partners at Solar First, and can very adequately conduct a site survey and gather the information required along with pictures to move toward providing you what you need for the board

Edited

Good Morning  
Steve. Yes I am flexible all day. I also have copies of our Nov electric bills  
Thanks

Would you mind sending those this morning as I am meeting with our head of install at 9 AM and will learn his availability today when I'm with him and also review this based on the detail you provided last week. The electricity bill would be helpful.

Please send me your email

Brian, can we meet at 3:30pm? And can you please confirm the exact address we are meeting as my gps is pulling up various options

Yes  
2424 Placida Rd  
C-202  
Englewood FL 34224

11/13/23, 3:04 PM

ETA on time. Barring traffic, I'll be there 3:30. Will call when I park

Right next to first carport

It will be just me, but I spoke to my lead installer and have his requirements and questions along with my own . See you soon

11/20/23, 11:49 AM

Brian, Got your voicemail. I appreciate the notice. I was rolling up my sleeves on the design this afternoon, so thank you. That said, we are good at what we do. If you know of any homeowner or non-profit, churches, etc., we know that space well and are helping a lot of good folks and entities with solar. Please keep me in mind

Delivered

Thanks again Steve. Happy Thanksgiving 🦃
