It seems you've ruffled feathers with your 6 qbs! We have a request to void your moves but I ain't got time for that

Hah it's not against the rules, and I'm solely concerned w not ending w the sacko, if it calms people down I'll drop them before playoffs

Haha what's a sacko...last place?

Makes sense to me man

Free country

It's really just Terry who apparently cares and for no good reason

Don't drop anyone

Be you

I hope Mac Jones tears it up and spoils your plan to rob me of QB options

Well played btw

You got kudos from the league on that play.

Delivered

Ha he was the one I was worried about, was between him and Wilson
