Willie, what's your Florida versus Northeast observation on Black people sitting in cars with tinted windows and parking for extended periods of time and staying inside. not just parking in equally shady areas. For example, parking at the park next to the gulfpry marina here or parking areas for other parks. See it all over

With seemingly no intent of ever getting out.

if it's hot, the drivers door is cracked maybe but just sitting there for long ass time

Then often times they leave abruptly. Sometimes flooring it down a road with old people and families walking stroller, dogs, whatever

Willie Poole

Never once witnessed that here

Aaron Morris

The poors do it here too. I always assumed that that is where the a/c works best

Willie Poole

Can't say I witness it in the northeast either

Aaron Morris

You got music, a/c, etc

Aaron Morris

Also a pride in their cars

Willie Poole

Black ppl just sitting in a running car for a long time? Nope, never noticed that

Aaron Morris

That's what happens when you stay in "car culture" world

Willie Poole

Anywhere

Willie Poole

Like how long do they sit for??

Aaron Morris

Also why did this get its own group chat name outside of Tax Pirates?

Sitting with the car off or more so than on

And strange behaviors in regards to the Park I'm at now with a cul-de-sac at the end

Literally just happened now a beat up old minivan with tinted windows takes a swerving journey around the cul-de-sac at the end of the park pier

And then accelerates those four-cylinders like they are part of a poverty pride parade

Melissa and I have been observing this behavior for months

Aaron Morris

So the swerving is from Houston car culture

I'll show you one parked now. Not nice car. Been here an hour and it's been running this whole time one black person in front

Not that swerving like unsure movements

Aaron Morris

I'm telling you, I think it's the ac and music

Aaron Morris

And also the kids aren't out there bothering you

Alright I'll roll with you on this

Just the other day was a black woman with kids here on the pier and the kids were crawling around the car no seatbelt when they were in the car to leave

They were eating lunch inside the car when done fishing and then they all threw their trash out the windows at the exact same time and the car peeled out

Edited

like 30's fat black ho and three kids ready to die

From either the inevitable car crash or diabetes. One of those two

As the man who picked up their trash with other white

I can tell you that family consumes far too many rainbow skittles

\$88 on junk food at Walmart just an hour prior to that

Aaron Morris

Laughed at "I can tell you that family consumes far too many r..."

Aaron Morris

I call them Javi-ittles

Aaron Morris

I eat a lot of those too

Willie Poole

Laughed at "I can tell you that family consumes far too many r..."

Willie Poole

They could be scammin

I sense a drop of spot

Willie Poole

That's the new thing blacks be doin

Willie Poole

Tappin into a nearby houses WiFi

Willie Poole

Big with black women working at fast food spots

I love it

Willie Poole

NEVER pay with a credit card at a fast joint

Debit more so I feel like

Willie Poole

Especially if the person is black

At least me

Willie Poole

Laughed at "Debit more so I feel like "

Was no joke

Who cares

7-11s got caught high jacking personal pins is all

Aaron Morris

Skimmers at the 711 right?

Willie Poole

Yeah who renamed us Super Bowl crunk squad

Aaron Morris

Always use the credit card

Aaron Morris

Boenrer created a new one

Willie Poole

What's the relevance there???

I wiped some convos taking up a lot of my iCloud

Aaron Morris

Let me know when you figure boerner out

New camera means iMessage eats my 200 gb iCloud plan like whoa
