Hello, I'm responding to the Angi's submission request for solar. My name is Steve Berner, one of the founders at Solar First. I just happened to see the request come in and thought I'd reach out.

Is there a time tomorrow I can give you a call?

Good afternoon, are you free at 2 PM for a quick phone call regarding your Angie's list request for information on Solar? If not, is there a time that works better for you?
