Hey Steve, it's Nick from the building. I was told by the person I rent from that HVAC people are coming on the 19th to ensure the air is working properly in each apartment and that they'll need access to the apartments. I won't be here the 19th or the whole weekend. I was going to give access to my apartment to the workers but I was wondering if you or Melissa would be able to walk by to ensure it is locked afterwards and if not to type in the code to lock it? If not, no worries. Thanks!

Yea I can do that no problem

Great, I appreciate it a lot!

Hey bud...I'm around today and can make sure your place is locked. Just remind me your unit number and I'll swing by once they come through the building

Hey, thanks again! It's apartment 2A. The electronic code is 1579. Just type it in to turn the lock. I left a small "thank you" on the counter

haha nice. So go in? Or just turn the lock?

Whether it's locked or not, enter to get the thanks on the counter, then just make sure it's locked when you leave. Always have to type in the code when opening/locking

Got it!

Awesome, appreciate it a lot!

You're all locked up!

THANK YOU

Solid, Karen just emailed me to tell me it was done. Thanks for coming to check on it. Enjoy my wine, we make it from start to finish, design the label and bottle it ourselves. Lmk what you think

Liked "THANK YOU"

I'll crack it up this weekend. Can't wait

Label is awesome

My dad is the true brains behind it all and it's his design 😂 but we help a lot and are learning the ways. Always happy to share

Loved "I'll crack it up this weekend. Can't wait"

Easily the best home wine I've ever had. Seriously good. Full body which I like.

Glad to hear you liked it! We try hard to make it more than the typical homemade wine
